Canon Higher Secondary School / Butwal / January, 2019 - January, 2021

### Bachelor

Nepal College of Information Technology / Lalitpur / January, 2022 - Present

# Ram Krishna Paudel

## Fullstack Developer

I am a versatile full-stack developer with expertise in creating seamless and scalable web applications. On the front end, I specialize in React.js and TypeScript to deliver intuitive and dynamic user interfaces. For back-end development, I leverage the power of Node.js and Django REST framework in Python to build robust and efficient APIs. My skill set extends to responsive design, accessibility, and performance optimization, ensuring exceptional user experiences across all platforms.

## ACHIEVEMENTS

---

### Professional Achievements

Developed and launched key web applications using React.js for front-end and Django REST Framework for back-end, significantly improving user experience and functionality.

## AWARDS

---

### Best Employee of the Month

English Hub / 2022 / Kathmandu, Nepal

Recognized as the "Best Employee of the Month" for consistently going above and beyond expectations. Demonstrated dedication by working overtime to successfully meet tight project deadlines, ensuring high-quality deliverables and exceptional team collaboration. This commitment contributed to the overall success of key initiatives and enhanced team performance.

## EXPERIENCE

---

### Front-end web Developer

English Hub / Lalitpur / February, 2022 - October, 2022

I worked as a Front-end Web Developer.

## SKILLS

---

- Proficient in writing clean HTML, CSS and Javascript code.
- Experience with front-end libraries and frameworks (e.g., React).
- Mastery of version control systems, such as Git.
- Clear and effective communication with cross-functional teams.
- Ability to translate technical jargon into layman's terms.
- Experience with Backend Node Js and frameworks (Django REST Framework).

## LANGUAGE

---

Nepali  
English

## PROJECTS

---

### Digital Clock, To-Do List, Analog Clock etcetra.

I have made several projects using HTML, CSS, and Javascript.

### Admin Panel/ User dashbaord

Developed an Admin Panel/User Dashboard using React.js for the front-end and Django REST framework for the back-end, enabling efficient project management and user interaction.

<https://englishhub68.com/>

### Sample Chat Application

Built a real-time chat application using React.js for the front-end and Django REST framework for the back-end, implementing seamless user communication and efficient message handling.

### User Authentication with Auth0 in Node.js

Implemented secure user authentication using Auth0 in a Node.js application, allowing seamless login, registration, and role-based access control with OAuth2.0 integration for enhanced security and user management

### College Finder

Developed a web application named "College Finder" as part of a semester project. The application allows users to search and filter colleges based on various criteria such as location, courses offered, and fees. Utilized Django Rest Framework to build a robust and scalable API for handling user

<http://localhost:5173>

### CV Builder

Built a dynamic CV Builder web application that allows users to input personal and professional details, select from pre-designed templates, and download the final CV as a PDF.

- Frontend: ReactJS, TailwindCSS, Material UI for responsive and modern UI design.
- Backend: Django Rest Framework (DRF) for handling user data and PDF generation.
- Features: User authentication, real-time preview, multiple CV templates, PDF export.
